What's New at Rand Lumber Company

Rand Lumber Company was founded in 1905 when Mr. Rand, then a farmer, purchased his first sawmill for \$700. Ninety-six years later, we're refocusing our energies on the mill and the many lumber products we can mill to supply area builders and craftspeople with the best quality wood at the most reasonable price. We'll continue to also be a source for building supplies related to the lumber we mill, as well as select other products we find to be the quality and value you've come to expect from us. Also new is our improved, redesigned website: www.randlumber.com. Check it out for after-hours ordering, product information, and links to valuable resources.

In our shop, you'll notice some big changes this month. We'll be redesigning our retail space to showcase our lumber products and provide up-to-date information on how you can best utilize them to benefit your current building needs. To gain space for this important area, we're cleaning house! Our space crunch can be your bargain! We've recently put up a new sale tent, directly behind the wooden gate in our yard. Check out this area for greatly prices on our close-out items.

Not just pine

You may know us for our quality pine products. We also stock hardwoods including maple, birch, oak, poplar and cherry in ready to use, nominal sizes, all at great prices.

While other large retailers have sales, or sell lower quality wood at low prices, we sell only the best quality wood at very reasonable daily prices.

Check out our great pricing on these standard items milled on-site

Along with this new focus on the lumber comes new faces. Colin Hayes has joined our team as an outside Sales representative. Colin is on the road daily, visiting job sites and helping facilitate your order back at the shop. Please feel free to call Colin or email him at sales@randlumber.com to set up a visit to your site. Another new face on the road for Rand is Chris Roscillo, our new truck driver. Chris is also a great asset to our team, helping put up loads in our yard and driving our delivery trucks. Please say hello when you see either Colin or Chris and please don't hesitate to ask them for any assistance that might make your project planning and purchasing easier!
